in thousands of New Zealand dollars

#### **General Information**

The New Zealand Law Society (NZLS) is governed by the Lawyers and Conveyancers Act 2006 (LCA). The LCA came into effect on 1 August 2008. It replaced the Law Practitioners Act 1982 (LPA). The LCA requires that the representative and regulatory functions of the NZLS are maintained separately and that separate financial statements are prepared for each category. These financial statements have been prepared for the NZLS representative function.

The NZLS representative functions (NZLS Representative) are set out in section 66 of the LCA. They are to represent its members and to serve their interests.

The NZLS Representative Group consists of NZLS Representative and Continuing Legal Education Limited (CLE). NZLS Representative, the Parent, includes the Legal Conference Fund (LCF), the Family Law section and Property Law section which formed part of the Group in the previous period but are included in the Parent from 1 August 2008.

The NZLS Inspectorate function formed part of the Group in the prior period but is not included as part of the Group in the current period as it is now part of NZLS Regulatory in accordance with the LCA. The transfer to NZLS Regulatory occurred on 1 August 2008.

The LCA requires a change a balance date from 31 July to 30 June. Accordingly, these financial statements have been prepared for the 11 months ended 30 June 2009.

The non-library assets and liabilities of District Law Societies, except the Auckland District Law Society, were transferred to NZLS Representative as at 1 February 2009. The library assets and liabilities from all the District Law Societies were transferred to NZLS Regulatory at the same time.

#### **Summary of Accounting Policies**

#### Statement of compliance

The financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (NZ GAAP). They comply with New Zealand equivalents to International Financial Reporting Standards (NZ IFRS), and other applicable financial reporting standards, as appropriate for public benefit entities.

#### **Basis of preparation**

The financial statements have been prepared on the historical cost basis. Cost is based on the fair value of the consideration given in exchange for assets.

Accounting policies are selected and applied in a manner that ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported.

The accounting policies set out below have been applied in preparing the financial statements for the period ended 30 June 2009 and the comparative information presented in these financial statements for the period ended 31 July 2008. Due to a change in balance date in the previous year the comparative information is for the 8 month period ended 31 July 2008.

The presentation and functional currency used in the preparation of these financial statements is the New Zealand dollar. Figures have been rounded to the nearest thousand.

#### **Basis of consolidation**

The consolidated financial statements are prepared by combining the financial statements of all the entities that comprise the Group, being NZLS Representative (the "Society" or "Parent") and its subsidiary as defined under NZ IAS-27: *Consolidated and Separate Financial Statements*. Consistent accounting policies are employed in the preparation and presentation of the consolidated financial statements.

In preparing the consolidated financial statements, all intercompany balances and transactions, and unrealised profits arising within the Group are eliminated in full. Investment in the subsidiary is measured at cost in the Parent's financial statements.

in thousands of New Zealand dollars

#### **Summary of accounting policies (continued)**

#### Revenue recognition

Revenue from a transaction to provide services is recognised by reference to the stage of completion of the transaction at the balance sheet date. Interest revenue is recognised using the effective interest method.

#### Transfers of assets to NZLS Representative

The assets and liabilities of the District Law Societies have been transferred at fair value as at 1 February 2009 through the Income Statement.

The net assets of CLE and the LCF were included as part of the Group in the previous period. These have been transferred into the Parent on 1 August 2009. Due to these previously being part of the Group, the fair value of the net assets have been transferred directly to equity.

#### **Financial assets**

Financial assets are classified on the nature and purpose of the financial assets as at the time of initial recognition which include cash and cash equivalents and trade receivables

#### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash in banks and bank investments and are held at amortised cost.

#### Receivables

Trade receivables and other receivables are recorded at amortised cost less any impairment losses.

#### Property, plant and equipment

Property, plant and equipment are stated at cost or valuation less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item.

Depreciation is calculated on a straight-line (SL) basis so as to write off the cost or other re-valued amount of each asset, other than land, over its expected useful life to its estimated residual value. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period.

The following estimated rates are used in the calculation of depreciation:

| <u>Class</u>                                | <b>Method</b> | Rate   |
|---|---------------|--------|
| • Computer equipment                        | SL            | 20-36% |
| <ul> <li>Furniture and equipment</li> </ul> | SL            | 6-48%  |
| <ul> <li>Motor vehicles</li> </ul>          | SL            | 20%    |
| Building                                    | SL            | 1%     |
| • Plant                                     | SL            | 5-20%  |

#### **Intangible assets**

Intangible assets comprise software applications that have a finite useful life and are recorded at cost less accumulated amortisation and impairment. These are amortised on a straight-line basis over their useful lives of 2 years.

#### Impairment of assets

At each reporting date, a review is undertaken of the carrying amounts of the tangible and intangible assets to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of the asset (as defined in NZ IAS-36: *Impairment of Asset*) is estimated in order to determine the extent of any loss (if any).

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Any impairment loss is recognised immediately in profit or loss.

Any reversal of impairment losses in subsequent periods is recognised immediately in profit or loss. However, any reversals must not result in the carrying amount of the asset exceeding its carrying amount had no impairment losses been recognised in prior years.

in thousands of New Zealand dollars

#### **Summary of accounting policies (continued)**

#### **Deferred revenue**

Deferred revenues are funds that are received for services that have not yet been delivered. If revenue is received before services are rendered, then it is recorded as a liability and recognised as revenue over the period for which the services are delivered.

#### Accounts payable

Accounts payable are recognised where there is an obligation to make future payments for purchases of goods and services. They are recognised at fair value initially then subsequently at amortised cost.

#### **Employee benefits**

Provision is made for accrued salaries and annual leave when it is probable that settlement will be required and they are capable of being measured reliably.

Provisions made for employee benefits expected to be settled within 12 months are measured at their nominal values using the remuneration rate expected to apply at time of settlement.

#### Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except for receivables and payables that are recognised inclusive of GST.

#### **Income tax**

Current Tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable). Tax assets and liabilities are offset only when the company has a legally enforceable right to set off the recognised amounts, and intends to settle on a net basis.

#### Deferred Tax

Deferred tax is accounted for using the comprehensive balance sheet liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, branches, associates and joint ventures except where the consolidated entity is able to control the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets arising from deductible temporary differences associated with these investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

in thousands of New Zealand dollars

#### Current and deferred tax for the period

Current and deferred tax is recognised as an expense or income in the Income Statement, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from the initial accounting for a business combination, in which case it is taken into account in the determination of goodwill or excess.

The Society as a lessor: Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

#### Cash flow statement

For the purpose of the cash flow statement, cash and cash equivalents include cash on hand and in banks and investments in money market instruments. The following terms are used in the Statement of Cash Flows:

Operating activities: are the principal revenue producing activities and other activities that are not investing or financing activities.

Investing activities: are the acquisition and disposal of long-term assets and other investments not included in cash equivalents.

Financing activities: are activities that result in changes in the size and composition of the contributed equity and borrowings.

#### Use of estimates and judgments in applying the accounting policies

In the application of the accounting policies, management are required to make estimates, judgements and assumptions about the carrying amounts of assets and liabilities. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may vary from these estimates.

Critical judgements impacting the current period include the determination of the fair value of the assets and liabilities transferred from the District Law Societies, assessment of impairment of assets and determination of deferred revenue.

# **Comparative amounts**

The comparative balances shown in these financial statements are for the 8 months ended 31 July 2008 and relate to the NZLS prior to the Act coming into effect. Certain prior period amounts have been reclassified for comparability with the current period.

#### Standards and Interpretations in issue but not yet adopted

At the date of these financial statements, the following Standards and Interpretations have been issued but not yet adopted. These Standards and Interpretations are not expected to have a material effect on the Group's Balance Sheet and Income Statement. Some of these Standards will affect the disclosures in the Notes to the Financial Statements.

| Standard/Interpretation                             | Effective for Accounting Period |

| in relation to the current tax of prior periods | -                                  | -                                 | (40)                               | -                                 |  |
| Deferred tax from the origination and reversal  |                                    |                                   |                                    |                                   |  |
| of temporary differences                        | 13                                 | -                                 | -                                  | -                                 |  |
| Deferred tax from the write-down, or reversal   |                                    |                                   |                                    |                                   |  |
| of previous write-down, of a deferred tax asset | (40)                               | 40                                | -                                  | _                                 |  |
| Total tax expense/(benefit)                     | 262                                | 200                               | 203                                | 163                               |  |

The prima facie income tax expense on pre-tax accounting profit from operations reconciles to the income tax expense in the financial statements as follows:

| Total tax expense/(benefit)                         | 262   | 200      | 203   | 163   |
|---|-------|----------|-------|-------|
| (Over)/under provision of tax in previous period    | -     | <u> </u> | (40)  | _     |
|   | 262   | 200      | 243   | 163   |
| Non-profit organisation exemption                   | (1)   | (1)      | (1)   | (1)   |
| Tax losses not recognised/(now utilised)            | (40)  | 40       | =     | -     |
| Non-deductible expenditure/ (Non-assessable income) | (810) | 151      | (825) | 225   |
| Income tax expense/(benefit) calculated at 30%      | 1,113 | 10       | 1,069 | (61)  |
| Surplus/(Deficit) from operations                   | 3,711 | 33       | 3,562 | (203) |
| expense in the imaneral statements as follows:      |       |          |       |       |

The tax rate used in the above reconciliation is the corporate tax rate of 30% payable by New Zealand corporate entities on taxable profits under New Zealand tax law.

<sup>\*</sup> includes transfers of District Law Societies assets

#### Building and leasehold land carried at fair value

An independent valuation of the Group's additional building and leasehold land was performed by Fright Aubrey registered valuers. Fright Aubrey registered valuers are independent registered valuers not related to the Group, and were engaged to determine the fair value of the Canterbury District Law Society building and leasehold land. The valuation was sought due to the transfer of the building and leasehold to NZLS as part of the LCA requirements. The valuation conforms to the New Zealand Property Institute Practice Standard 3 – Valuations for Financial Reporting Purposes and was issued on the 29<sup>th</sup> of January 2009. The effective date of the valuation is 29 January 2009. In arriving at the current market value assessment for the premises, an income approach was considered to be the most suitable. To that end, Fright Aubrey first considered the market rental payable for the property and then, after deducting operating expenses, capitalised the net return into value at an appropriate capitalisation rate.

#### 6. Subsidiary

Continuing Legal Education (CLE) was incorporated on 1 August 2008 and forms part of the NZLS Representative Group. The balance in the Parent, NZLS Representative, includes the following:

The average credit period on purchases of certain goods and services is 30 days. Financial risk management policies are in place to ensure that all payables are paid within the credit timeframe. All trade payables have short term contractual maturities and therefore no interest is charged over a term.

#### 12. Financial Instruments

The carrying amount of financial assets recorded in the financial statements represents the maximum exposure to credit risk without taking account of the value of any collateral obtained.

# Fair value of financial instruments

The fair value of the financial instruments, financial assets and financial liabilities does not differ materially from the value as reflected in the Balance Sheet.

#### Interest rate risk

The Group is exposed to interest rate risk in that future interest rate movements will affect cash flows and the market value of fixed interest and other investment assets. The Group does not use any derivative products to manage interest rate risk.

#### Credit risk

The maximum credit risk associated with the financial instruments held by Group is considered to be the value reflected in the Balance Sheet. The risk of non-recovery of these amounts is considered to be minimal. The Group does not require collateral or other security to support financial instruments with credit risk.
